

Oracle™
EUS balloon

listening...and delivering solutions®

A durable EUS balloon offering superior tear resistance...

The Oracle™ EUS balloon is manufactured not to contain latex and allows for easy application.

The Oracle™ EUS balloon...

- minimizes balloon tearing during application to the endoscope
- eliminates the risk of exposing patients and staff to latex
- an elastic band design allows for easy application
- elastic material offers a secure grip to ensure the balloon stays on the endoscope throughout the procedure

radial array

One balloon for both Radial and Curvilinear endoscopes.

For more information on the Oracle™ EUS balloon, contact US Endoscopy today.
